SUMMARY

Software Engineer with 3+ years of professional experience building and shipping production systems at enterprise scale at Bechtel Corporation. Skilled in backend engineering, REST APIs, cloud infrastructure on Azure, and automation. Currently pursuing M.Sc. Computer Science at TU Dresden with a focus on AI, Machine Learning, Data Analytics, and Software Architecture. Actively building with LLMs and AI APIs. Seeking a Werkstudent role in software engineering, data analytics, data engineering, or AI development.

WORK EXPERIENCE

Software Engineer | Bechtel Corporation, Gurugram, India Aug 2024 – Sep 2025

- Diagnosed and resolved a production-critical regression affecting 1.7M+ records; delivered a Java and PL/SQL fix before any impact reached 30,000 users across 100,000+ projects
- Owned end-to-end automation of enterprise procurement integrations in Java and PL/SQL, becoming sole developer responsible for all integration automation across the platform
- Designed and maintained RESTful APIs in Java for real-time data exchange across distributed backend systems
- Strengthened cloud security by implementing Azure access management solutions ensuring compliance
- Built custom web modules extending core platform capabilities beyond standard out-of-the-box functionality

Associate Software Engineer | Bechtel Corporation, Gurugram, India Aug 2023 – Aug 2024

- Built Java backend services and SQL data pipelines powering enterprise procurement workflows across global mega-projects
- Optimised backend integrations using PL/SQL and Java, improving data accuracy and reducing production errors
- Developed RESTful web services for cross-system data exchange, reducing error rates in production

Junior Software Engineer | Bechtel Corporation, Gurugram, India Jun 2022 – Jul 2023

- Developed database components and Java backend modules deployed in production supporting core business requirements
- Built system interfaces in Java and SQL enabling seamless data exchange between enterprise platforms
- Delivered backend features and enhancements consistently across Agile sprints

Full Stack Developer Intern | Clapsell Inc May 2021 – Aug 2021

- Developed and deployed full-stack web applications using Java, Spring Boot, MySQL, and ReactJS delivering end-to-end features from backend logic to responsive UI
- Improved database query performance by implementing targeted indexing strategies, reducing response times significantly

EDUCATION

M.Sc. Computer Science | TU Dresden, Germany Oct 2025 – Present

Coursework: Software Engineering, Data Analytics, Data Visualization, Artificial Intelligence, Machine Learning, Software Architecture & Design Patterns

B.Tech Computer Science and Engineering | Amity University, India Jul 2018 – Jun 2022

Coursework: Database Management, Data Structures, Algorithms, Object-Oriented Programming, Discrete Mathematics

TECHNICAL SKILLS

Languages: Java · Python · JavaScript · SQL · HTML · CSS

Frameworks: Spring Boot · FastAPI · Django · ReactJS

Cloud & DevOps: Azure · Git · GitHub · CI/CD · Docker · VS Code

AI & Tools: Claude AI · GitHub Copilot · Prompt Engineering · Jira

Practices: REST APIs · OOP · Agile/Scrum

Spoken: English (C1) · German (A2)
